To: Coastal Division
Attention: Chief A. S. Cuevas

ADAM

From: **DEPARTMENT OF CALIFORNIA HIGHWAY PATROL**
Office of the Assistant Commissioner, Inspector General

File No.: 005.9968.A7146.010

Subject: 2009 COMMAND PROPERTY INSPECTION REPORT

In accordance with procedures outlined in Highway Patrol Manual (HPM) 11.2, Materials Management Manual, and HPM 22.1, Command Inspections Program Manual, an inspection of your command's property, including vehicles and weapons, was completed by the Property Inspector (PI) on May 18, 2009 – May 22, 2009. Using property records from the appropriate Offices of Primary Interest (OPI), the PI selected a random statistically-valid sample of property that was stratified across four property areas: general inventory control, telecommunications, fleet, and weapons (see Attachments B, C, D, and E). Additionally, the PI randomly selected items within your command and compared them to the appropriate inventory records. The complete Division (Division office and Division units) property count list is summarized in Attachment F.

According to the OPI inventory lists, the command and corresponding Division units have a combined total property inventory population of 1,660 items. The statistically-valid sample at a 95 percent confidence level \pm 4 percent error rate provided a total sample size of 478 items. Each OPI inventory list was stratified and the results rounded to the nearest whole number to ensure all inventory lists were proportionally represented in the statistically-valid sample. The stratified totals for the command and Division units are summarized in Attachment G.

When comparing equipment recorded on the predetermined property inspection lists for the equipment located within the nine Division units, 433 of the 478 items were located. Twenty-eight items were unavailable for inspection due to employees being out of the office or located at off-site locations, 11 items could not be located because they had been transferred to other commands, and six items (two Computers, two Digital Recorders, one Hand-Held radio, and one Battery Charger) could not be located. Furthermore, 10 of the 433 items require a correction be made to the property record. The property inspection results of the equipment recorded on the predetermined property inventory lists to equipment located at the command and Division units are summarized in Attachment A.

Safety, Service, and Security

Coastal Division
Page 2
November 16, 2009

When comparing equipment located at the command and Division units to the OPI inventory lists, 231 of the 276 items reconciled. Twenty-nine items were not listed on the appropriate OPI inventory lists, four items were transferred to other commands, and 12 items require a correction be made to the property records. The property inspection results of equipment located at the command and Division units to the OPI inventory list are summarized in Attachment A.

I request your command and the respective Division units research and investigate all discrepancies in accordance with departmental procedures outlined in HPM 11.2, Materials Management Manual, Chapter 8, Equipment, and work with the appropriate OPI(s) to rectify any variances. A Physical Inventory Adjustment Request, CHP 24, must be completed to adjust the inventory records. In order to verify that the above listed discrepancies have been rectified, please submit a memorandum to the Office of Inspections by February 16, 2010.

Furthermore, in accordance with the Governor's Executive Order S-20-09 to increase government transparency, this report will be posted on the CHP's internet website, and on the Office of the Governor's webpage, located on the State's Government website.

The Office of Inspections would like to thank your command for their assistance during this property inspection. If you have any questions or need additional information, please contact me or Roger Ikemoto, Senior Management Auditor at (916) 843-3160.

Jennifer Gomez - Re: #180877 & 180880

From: Jaime Escobar
To: Jennifer Gomez
Date: 5/19/2009 2:44 PM
Subject: Re: #180877 & 180880

Jennifer,

The printers with the associated tag numbers 180877 & 180880 were enter in Oracle Data Base by mistake. The tag numbers for the printers should be 160877 & 160880. The P.O. for the printers is 701H7049 with requisition number 701PR7086 for 7 Photosmart C6280 Printers

The tag numbers for all 7 printers should be 160877 thru 160883. I will contact Inventory Control Unit and notify them about the error.

*You can use this e-mail for inventory purposes

Hi Jaime,

Sorry to bother you. I just wanted to find out if these printers below (HP C6280) are in or around your warehouse? These are very new printers and no one here remembers purchasing. We don't have anything in our Purchase Req's

I really appreciate any information you may be able to provide.

Thanks in advance Jaime!
